FOLEY'S KIDNEY CURE Makes Kidneys and Bladder Right

THROUGHOUT RUSSIA

COUNCIL OF WORKMEN ADOPTS PLAN OF SOCIALISTS TO BEGIN GENERAL STRIKE.

DECLARES WAR TO THE KNIFE

PREMIER STOLYPIN ADVOCATES STERN MEASURES TO SUPPRESS REVOLUTION.

St. Petersburg, July 25.—A meeting of the recently reorganized council of workmen was held in secret at night. It was attended by delegations representing all the important factories in St. Petersburg, deputies from the League of Leagues and representatives of the Social Democratic and Social Revolutionary parties. The meeting discussed and accepted a proposition from the Socialist group of the dissolved lower house of parliament to unite with them in the formation of a central organization to direct a strike movement throughout all Russia.

ADVOCATES STERN MEASURES.

Premier Stolypin Declares War on Revolution.

St. Petersburg, July 25.—War to the knife with revolution and the knife to the hilt, has been proclaimed by Premier Stolypin in a telegram addressed to the governor generals, governors and prefects throughout Russia and to the viceroy of the Caucasus, who are ordered to strike and spare not in efforts to preserve order and crush "the enemies of society."

Included in this category, as shown by the events of the day are not only revolutionists and socialists, but also the educated liberal and landed classes represented in the Constitutional Democratic party whose clubs everywhere have been closed, and all the progressive newspapers, which are not permitted to lift their voices anywhere throughout the entire land.

Premier Stolypin's telegram is as follows:

"In conformity with instructions received from the emperor with the view to securing full co-operation between the different local authorities, I hereby inform you that the government expects you to exercise vigilant and untiring supervision over your subordinates so that order may be promptly and definitely restored. Disturbances must be suppressed and revolutionary movements must be put down by all legal means. The measures you take must be carefully considered. The struggle begun is against the enemies of society and not against society itself. Consequently wholesale repression cannot be approved. Imprudent and illegal acts are likely to give rise to discontent instead of conducting to calm and cannot be tolerated. The intentions of the emperor are immutable. The government firmly desires to assist in the amendment of the legal procedure and the laws hitherto enforced which no longer serve their purpose. The old regime will be regenerated but order must be fully maintained. You must act upon your own initiative as you are invested with responsibility.

Firm and Vigorous Steps.

"Firm and vigorous steps taken on these lines will doubtless be upheld by the best part of society."

The manifesto bears a remarkable similarity to the earlier compositions of Ministers of the Interior Plehve and Bouligin, and the reactionary press has had slight difficulty in cutting it down, as they already had done with Monday's imperial manifesto, into an appeal to the "League of Russian Men" and other old school Russians to rise and smite all the progressive classes.

Even before the declaration of the dissolution of the lower house of parliament, the war office had perfected its plans for handling expected disorders, both military and civilian. General Muller Zakomelsky, who suppressed the Sebastopol revolt and cooperated with General Rennenkampf in the reduction of the Siberian rebellion last winter, was recalled from the command of a corps and placed at the disposition of the war office to be used wherever trouble may first be manifested. Both the government and the revolutionists expect this outbreak in the south, and that it will roll northward to the capitals.

This may induce the proletariat organizations to postpone the declaration of a general strike from St. Petersburg until contagion is borne up from the south. The railroaders, however, are anxious to have this strike declared at once. Members of the railway employees' union with whom the Associated Press correspondents here and in Moscow have talked declared that they were ready to walk out at the first call from the league of

leagues, with which the union is federated.

Censorship is Strict.

The strictest censorship over news of military disorders is maintained. As an example, the mutiny at Brest-Litovsk July 23, when a band of artillerymen from the fortress fired on the officers' club, killing two officers, has been transformed into a fire destroying the house of the officers' club.

The ministry is obtaining slight aid from the forces of society at large in putting through its policy.

MM. Shipoff and Guchkoff and practically all the others who have been approached have refused flatly to participate in the enlarged cabinet proposed. Of the members of the late parliament only Prince Nikolai Lvoff of Saratov, who, though a Constitutional Democrat, is a personal friend of Premier Stolypin, is understood to have given the plan favorable consideration and it is said that he probably will accept a ministry without portfolio.

The Constitutional Democratic club and two other political clubs have been closed by order of the police authorities. A caucus of Constitutional Democrats was being held at the club named at the time. Prince Paul Dolgouroff, chairman of the central executive committee appointed at Niborg on Monday, has called a meeting of that committee, which will arrange a secret caucus to discuss further tactics. Moscow Constitutional Democrats recommend the summoning of a national convention of the party but this will scarcely be allowed by the authorities.

Meetings are being held in a dozen houses in St. Petersburg, and just across the frontier railway employees, peasants, socialists and revolutionists of different shades of opinion are discussing the best plan of action to throw the whole machinery of the government out of gear.

Agrarian disorders have broken out in the vicinity of St. Petersburg. The estate of General Baron Fredericks, side-de-camp to the emperor, forty miles from the capital, has been plundered by peasants. General Frederick asked for troops from Gatchina, but was informed that the situation was too serious to permit of the changing of the present military dispositions.

SCATTERED BY INFANTRY.

Cossacks Who Tried to Start a Massacre of Jews Dispersed.

Odessa, July 25.—There has been no actual pogrom here, but drunken Cossacks endeavored to instigate a massacre of Jews in the industrial suburb of Malodovanka, but were scattered by infantry, who instantly cordoned the Jewish quarter and threatened to annihilate the Cossacks. The latter were withdrawn to their barracks by their commandant's order.

Under sudden terror 500 Jewish families sought refuge in other parts of the city.

CONDEMNED BY TERRORISTS.

Death Sentence Passed on the Czar, General Trepoff and Others.

St. Petersburg, July 25.—Proclamations announcing that the death sentence has been imposed on the emperor; General Trepoff; M. Pobledonosteff, who was procurator general of the holy synod; General Orloff, the "pacifist" of the Baltic provinces, and others have been scattered over part of Peterhof.

The terrorists are said to have succeeded in nailing copies of the sentence on the doors of General Orloff's and General Trepoff's quarters.

NO DISORDERS OCCUR.

Third Day After Dissolution of Parliament Passed Quietly.

St. Petersburg, July 25.—The official telegraph agency announced Wednesday morning:

"The third day after the dissolution of parliament passed quietly. Neither here nor at Moscow or other provincial towns have disorders or strikes occurred in any way connected with the dissolution."

Officers Ordered Home.

Vienna, July 25.—Russian officers spending leave of absence at Austrian watering places have been ordered by telegraph to return to Russia. The orders point out that threatening conditions make it necessary to place the army on a war footing.

ENGINEER SAVED THE COOK.

But the Gallant Rescuer Lost His Wooden Leg.

Detroit, July 25.—The tug William B. Castle was sunk in the Detroit river near the head of Belle Isle at night by colliding with the lumber boat Robert Holland, which was somewhat damaged. The woman cook aboard the Castle (name unknown) became frightened when the vessels crashed in passing and leaped overboard. The engineer (name also unknown), who had a wooden leg, jumped over after her and succeeded in rescuing her, but lost his wooden leg. The William B. Castle was towing the bark Rhodes when the accident occurred.

CHARGES OF PEONAGE

MADE AGAINST OFFICERS OF THE JACKSON LUMBER COMPANY AT LOCKHART, ALA.

GERMANS HELD AS SLAVES

IMMIGRANTS WHO ESCAPE FROM LUMBER CAMPS TELL OF BRUTAL TREATMENT.

Pensacola, Fla., July 25.—Peonage in a vicious form is charged against the officers of the Jackson Lumber company at Lockhart, Ala., and United States deputies, armed with warrants for their arrest, have left here for that place.

If the allegations are true about 100 immigrants, mostly Germans, are held in the lumber camps of that company virtually as slaves. A party of Germans reached here Tuesday from the camps, stating that they had escaped. They went to the German vice consul for protection and told him a tale of ill-treatment and cruelty that has hardly a parallel in the South. They said they were brought South in February under representations that they would receive \$3 and \$5 per day, but only \$1 was received from the company for the labor. They allege that they were compelled to eat after the Americans, and if nothing was left they got nothing. None of them was allowed to leave camp and when they attempted to leave they were caught and severely beaten. When in the woods the bosses go armed and if the men do not work to suit them they are stripped and while two of them hold a man across a log a third plies a strap or any instrument of torture handy.

The Jackson Lumber company is one of the largest in the South. It was organized three years ago and is composed principally of Michigan and Wisconsin capitalists.

BY IMPERSONATING A WOMAN.

St. Louis Policeman Arrests Man Who Wrote Threatening Letter.

St. Louis, July 25.—By impersonating Mrs. Theresa Bernero, a wealthy Italian widow, Policeman Carpenter captured a man giving him the name of Johann Hoppe, who is held on a charge of sending a threatening letter to Mrs. Bernero. The letter demanded \$500 in cash. It threatened that if Mrs. Bernero communicated with the police or failed to provide the money that her home would be dynamited.

An appointment was made for 8:30 p. m. and Carpenter dressed in one of Mrs. Bernero's gowns, followed the directions contained in the letter. He was accosted by a man who demanded the money.

Carpenter handed him a package with his left hand, at the same time striking him on the jaw with his right. The man showed fight and Carpenter, hampered by the dress, was worsted and the man fled. Other police who had been stationed in the neighborhood took up the chase and Hoppe was captured.

Beyond saying that he had been in St. Louis only two weeks and in this country only eighteen days, Hoppe refused to make a statement.

FIVE MEN UNDER ARREST.

Charged With Selling Mortgage Tax Stamps That Had Been Used.

New York, July 25.—Charged with selling mortgage tax stamps and stock transfer tax stamps that had already been used, five men have been arrested on complaint of the state comptroller, Attorney General Mayer and District Attorney Jerome. The authorities charge that the state government has been defrauded of over \$200,000. The men, all of whom were arrested in Wall street, are Frederick Thompson, a clerk, fifty-three years old; William O'Reilly, twenty-one; Patrick King, sixteen; C. H. Lawrence, twenty-three, and Luke McSherry, a retired foreman, all of Brooklyn. It is alleged that the marks were removed by the use of chemicals, after which the stamps were ironed.

FIVE BLOCKS BURNED.

California Town Sustains Heavy Loss by Fire.

Suisun, Cal., July 25.—A fire which started here at 3:40 o'clock p. m., burned until 9 o'clock p. m., causing a loss of \$100,000. Five entire blocks, including twenty residences and eight business plants, were destroyed. The fire was checked before reaching the main business district.

FUNERAL OF RUSSELL SAGE.

Services Held in First Presbyterian Church at Far Rockaway.

New York, July 25.—The funeral services over the body of the late Russell Sage were held in the First Presbyterian church at Far Rockaway, L. I., in the afternoon. A number of prominent persons were among those who came to pay a last tribute to the memory of the aged financier. The service was conducted by the Rev. Andrew Hageman, D. D., assistant pastor of the Collegiate Reformed church of New York, assisted by the Rev. Robert Leitch, pastor of the First Presbyterian church, Far Rockaway, and the Rev. Lyman D. Calkins, a former pastor of the church. Mrs. Sage attended the services. A party of Mr. Sage's friends in this city attended the funeral.

After the services in Far Rockaway the body was placed in a special car and brought to this city, where it was taken to the Sage home in Fifth avenue. The casket was placed in the front parlor and was so arranged that friends of the family who called might have a last look at the face of the dead financier. Mrs. Sage accompanied the body to the city.

The casket containing Mr. Sage's body, when finally interred, will rest in a heavy steel case and which in turn will be encased in concrete. Until such time as these arrangements can be carried out in detail it is said the temporary grave will be carefully guarded.

SENTENCED TO BE HANGED.

Quadruple Murderer Will Be Executed at Folsom, Cal.

Auburn, Cal., July 25.—Adolph Webber, who murdered his father, mother, brother and sister at this place two years ago in order to obtain possession of the family estate of about \$60,000, was brought into court here and sentenced to be hanged at the Folsom penitentiary on Sept. 12, next.

ON COMMERCE COMMISSION.

President-Roosevelt Offers A. B. Stickney a Place.

Kansas City, Mo., July 25.—A special to the Journal from Washington, D. C., says: A. B. Stickney, president of the Chicago Great Western Railway company, has been offered a place on the interstate commerce commission by President Roosevelt. The offer of the position was made to Mr. Stickney five days ago.

Fireman Meets Horrible Death.

Helena, Mont., July 25.—L. D. Chauby, formerly employed as call boy at the local roundhouse, and recently advanced to the position of fireman, met death in a frightful manner at Billings. Two engines came together on a "Y" just as Chauby was coaling up. The force of the impact threw him head foremost into the firebox, and his head was nearly burned off before his body could be withdrawn.

ASKS CONTRIBUTIONS

PRESIDENT GOMPERS REQUESTS

UNION MEN TO DONATE TO CAMPAIGN FUND.

Washington, July 25.—A notable report reached here by way of New York regarding the real feature of the conference between President Roosevelt, the Republican campaign committee managers and Speaker Cannon.

It was not the tariff and revision so much as it was the labor movement in the campaign and the activity of the American Federation of Labor. The decision was to meet the labor leaders squarely on the issues presented.

Another part of the political story is that both the Republicans and the labor leaders are in hot quest after funds. Chairman Sherman has issued a circular calling for dollar contributions from all Republicans and promising to send copies of the campaign text book and other literature to contributors. This is the definite campaign for cash independent of the large contributors of former election contests.

The information is also given out here that President Gompers of the labor organization has gone one better on the question of campaign contributions. He has sent a circular to all the local camps of the organization urging contributions of \$5 from every union man, or at least \$1, if the greater amount cannot be spared. This fund is to be used to defeat objectionable candidates of both parties against whom the labor leaders are making a fight.

It is the intention of President Gompers to maintain a regular political headquarters here, modeled after the organizations of the two great parties. He will be in personal charge in the campaign and direct operations of speakers and organizers.

MAY SUPPORT HEARST.

Tammany Likely to Back Him for Governor of New York.

New York, July 25.—Charles F. Murphy, leader of Tammany Hall, says that it is possible that Tammany Hall will support William R. Hearst for the Democratic nomination for governor in the next state convention. Mr. Murphy said:

"Mind, I don't commit myself. I don't say that Tammany will be for Hearst. I only say that his opposition to our ticket last year will not of itself make it impossible for Tammany to support him in the convention."

Mr. Murphy said that he had no opinion to express at this time as to whether or not Mr. Hearst will be nominated.

OFFICER DE ROCHER
A VERY SICK MAN

Was Stricken Last Night and has Practically no Chance for Recovery.

WAS NOT CAUSED BY FALL

But the Fact that He Had Been Confined to the House May Have Induced Trouble

Moses DeRoche, Sr., for the past 24 years a member of the police force of Brainerd, is lying at his home unconscious and almost in a dying condition. Mr. DeRoche was hurt in the hip about a fortnight ago, and while he was recovering from the effects of the fall it is thought that the enforced quiet, after years of active life, was a factor in causing the septic conditions that have become manifested in the past 24 hours. He was taken very bad last night and is unconscious today. Acute Kidney disorder has set in and the physicians in charge fear that it is only matter of a very short time until the veteran police man will be no more. Mr. DeRoche was one of the widest known men in Crow Wing county and was liked by all who knew him. His face and form will be missed on the street for a long time.

Misses Gertie and Stella Fisk, of Fall River, Wisconsin, are guests at the home of Jay Batchelder.

PROPERTY HELD

Owner of Property Responsible For Electric Light Bill Run By the Tenant

IF CITY OWNS THE PLANT

Provision of the Laws not Generally Understood, but in Force For Years

City Attorney Mantor has called the attention of THE DISPATCH to a provision of the laws of Minnesota which provides that the owner of any real estate in Brainerd is holden for the electric light bill of the tenant. This provision while clear and undisputable is so hidden, so to speak, as to have lain long unnoticed.

Chapter 8 of the General Laws of 1895 confers upon municipalities the power to own, control and conduct water works. It provides in Sec. 291 that the owner of any property connected with city mains is holden for the water rent of the premises whether occupied by himself or others. Sec. 293 of the same chapter provides that where a municipality owns its own lighting plant the provisions of the preceding sections shall apply so far as they may be applicable to a lighting plant. This, of course, will bring Brainerd under the provisions of the act and will undoubtedly render collectible a large part of the light rental now lost.

The provisions being in the portion of the law devoted to municipal water works it is little wonder that it lay unnoticed so long, and it is fortunate that it has been found.

Mr. Mantor believes that it is not more than right that the property owners be apprised of the situation that they may take necessary measures to see that none of their tenants become delinquent.

G. B. Burhans testifies after four years

G. B. Burhans, of Carlisle Center, N. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am entirely cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble." A HARD STRUGGLE

Many a Brainerd Citizen Finds the Struggle Hard

With a back constantly aching, With distressing urinary disorders, Daily existence is but a struggle. No need to keep it up. Doan's Kidney Pills will cure you. Brainerd people endorse this claim:

Mrs. John Olson, of 1115 Oak St., Brainerd, Minn., says: "I am sure that every sufferer from kidney troubles will find just as much satisfaction as I did from the use of Doan's Kidney Pills, and there really is no need for anyone to suffer from kidney complaint as long as this remedy can be obtained. I suffered for some time from a disturbed action of the kidneys which caused a great deal of pain and annoyance. I did not rest well at night and felt languid and tired from the time I got up in the morning until I went to bed at night. Sometimes it was hard for me to get around to attend to my household work. Hearing what Doan's kidney pills were doing for others in Brainerd I decided to try them and got a box at H. P. Dunn & Co.'s drug store and found quick relief. The improvement continued and finally resulted in a complete cure. My health is now better in every way than it was before I used Doan's kidney pills. I am glad to tell all about my case to anyone who cares to enquire."

For sale by all druggists. Price 50 cents. Foster Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name—Doan's—and take no other.

ISTORY OF
THE DISASTER
V. W. Hartley Writes at Length
Of the Disaster that Befel
The Western City
HE CONDITIONS IN DETAIL
Most Complete Account of what
Occurred and Description of
Wreck and Fire

(Continued from Yesterday's Daily)

Water in abundance surrounds the city, but thoughtless negligence provided no means for utilizing it. A pumping station with reservoirs on the elevations, costing a few paltry thousands of dollars, has long been advocated and put off, "Municipal ownership," "Geary Street Railway" and like political hobbies submerging it, notwithstanding the recognized superior effectiveness of salt water in fighting fire. Of course no one foresaw the destruction of the water supply or many remedies would have been provided. Yet, property owners may learn from this that it is poor policy to live across the bay and leave the voting and entire management of the city affairs to the politicians.

When it was found, in the early morning, that there was no water, dynamiting was undertaken, but the blundering and fatal error was made of blasting burning buildings, scattering the fire, and using excessive charges, adding seriously to the wreckage; instead of going far enough ahead to demolish a row of buildings and clear away the debris, thus making an effective fire-line before the fire reached it. The local supply of dynamite was soon exhausted and the ammunition wagons from the Fort began distributing the government supply, when the blasting was resumed with increased vigor and destruction. I enquired why this was allowed, pointing out how it was accelerating the damage both by wreckage and fire, but I was told that Lieut. Briggs who dynamited Baltimore, was in charge and that it was the only thing that could be done in the absence of water. I answered that I never knew before why Baltimore burned.

The dynamiting was continued, spreading wreckage and flames until the city was no more. Everything was burned but the fringes of the outlying districts, that were too scattering to burn, and a part of the Western Addition, that was favored by heavy winds driving the fire-brands and sparks away from them. That the dynamite did far greater damage in wrecking buildings than the earthquake, and was responsible for the complete destruction of the city, is beyond question. The fire north of Market, where there were no wooden buildings, was progressing slowly, comparatively, building by building, and had practically stopped at Sansome, and I fully believe would have exhausted itself but for the use of explosives. Whole cases of dynamite were placed in burning buildings just ready to fall, the explosion of which, instead of extinguishing or checking the flames, increased their force and volume, shattering the windows in unburned buildings in its road and opening the way for the leaping flames, which were intensified by the explosions and throwing fire-brands and sparks flying through the air in every direction, a block or more in advance of the fire. I was in my office in the Kohl building shortly after two o'clock in the afternoon, when a heavy charge of dynamite was exploded in the "What Cheer House" opposite my windows, in the same block, just to collapse with the fire, which broke the heavy plate glass in my windows and sent it crashing to the floor about my chair. About ten minutes later two heavy shocks of earthquake brought

more of the broken glass showering about me and I left rather precipitately. The fires stopped when there was nothing left to burn, but the dynamiters continued their destruction of property, razing dangerous walls, until a million dollars will not cover the damage to buildings that withstood the flames. Thus poor old San Francisco was dynamited to her doom. Instead of employing a good mining man who understood dynamite and how to use it effectively and safely, the policy seemed to be to estimate efficiency by noise. I am told that a ton of dynamite was actually discharged at one blast. It was great sport for the dynamiters while it lasted.

When night fell the only light was the burning city. There was neither gas nor electric light and people were forbidden even to light a match in their homes, under penalty of being shot.

By Thursday morning Chinatown was gone; Nob Hill was nearly surrounded and everything between that and Market, including the St. Francis Hotel, and North to North Beach, was in ruins. The fire continued westward all that day and night and by Friday morning the devastation was complete. Van Ness Avenue and in places out to Laguna, being the western limit.

Millionaires of Tuesday were no better off than paupers in the same bread-line on Friday; no further thought of strikes, union and non-union men once more brothers on the same common level of humanity,—poor, weak atoms of an impartial nature; the contention for Municipal Ownership a thing of the past, buried in the debris of a great city; everybody glad to welcome the street cars without asking who owned them, Mayor Schmitz, the apostle of Municipal Ownership, himself at the wheel piloting the first car, amid the wildest cheers and joy, as he had been the foremost, in season and out of season, in devotion to the common welfare in these trying days.

Viewing the ruins of all the gilded dens of vice, that have lured thousands of young men to their ruin, I wonder if fathers' curses and mothers' tears had ought to do with this devastation that has left neither brothel, gambling hell, saloon or dive in all that wicked city; and if I were inclined to be superstitious, I might think that the stone that killed Chief Sullivan and crippled the Fire Department at the very initiative of this great catastrophe, was intended to prevent any effective interference with the plans of complete destruction. One thing is certain: these hot beds of vice are no more, and blessed be the powers of their demolition, whatever else of loss it may have entailed; and let us hope that the coveted "wide open" policy will not mar the new San Francisco.

NORTH STARS HAD
PLEASANT PICNIC
Perfect Day and Jolly Crowd
Joined to Render Picnic a
Success.
260 TICKETS WERE EXCHANGED
Pine Program of Speaking, Sports
and Dancing Makes Time
Pass Very Rapidly.

The God of weather was certainly with the North Star association in their choice of a day for a picnic. A more perfect day could not have been made to order. The lake was stirred by just enough breeze to render boating enjoyable. The association and its friends left at eight o'clock in a special of six coaches and a baggage car, the latter well loaded with refreshments. On reaching the village of Deerwood the party proceeded to the picnic grounds, some going afoot, some by team and many going by boat, the committee having engaged Harry Patterson's entire stock of boats. A steam launch belonging to Mr. Brady was also chartered and with a large barge in tow could take over a hundred passengers at once.

The crowd was called to order and Attorney Allbright made a few brief remarks in introducing C. A. Lindberg, of Little Falls, who spoke to the people for a short time. He dwelt principally upon the benefits of social intercourse and of such gatherings as this and in conclusion touched briefly upon the rate question.

The afternoon and early evening was devoted to sports and dancing, music being furnished by Graham's orchestra. Everyone appeared to enjoy the day to the utmost, the train leaving Deerwood on the return trip at 9:30.

DISTRICT COURT NOTES

Several Cases Argued Before Judge McClenahan This Week and Taken Under Advisement.

The case of Anton Mahlum against Crow Wing county, which was brought to recover pay for extra work alleged to have been done for the county on a special contract with the county commissioners, which was thrown out on a demurrer some time ago, is up in the district court again, Attorney Gardner having filed an amended complaint. County Attorney Polk demurred to the amended complaint and the demurrer was argued Tuesday, Judge McClenahan taking the matter under advisement.

Another case in which Crow Wing county is defendant is an action brought by the village of Litchfield to recover for the care of Wm. Racy, who had the small pox in that village in July 1905, and who is alleged to have been at that time a resident of Crow Wing county. Attorney T. C. Blewitt appeared for the village of Litchfield and County Attorney Polk for the county. Mr. Polk filed a demurrer against the complaint, which was also argued Tuesday and taken under advisement.

Quo warranto proceedings have been brought by the Attorney General against the officers of the village of Baudette, returnable Thursday of this week, before Judge McClenahan. It is asked that they show by what authority they seek to act as such town officers, it being claimed that the organization of the town is illegal.

The case argued Saturday regarding the playing of ball on certain property in Bemidji on Sundays, is also under advisement.

FOUR STILL MISSING

ELEVEN BODIES TAKEN FROM
RUINED BUILDING AT SOUTH
FRAMINGHAM, MASS.

NUMBER OF DEAD UNKNOWN

BUT AT LEAST SIX PERSONS LOST

THEIR LIVES IN THE TRAIN
WRECK IN IDAHO.

South Framingham, Mass., July 25.—Although the search for the bodies of workmen and other persons thought to be buried in the ruins of the collapsed business block on Concord street continued all Monday night and throughout the day, the coming of darkness found the task of the searchers still far from completion.

The finding of the body of Henry T. Lawler, a prominent hardware dealer, who went to the building to inspect the plumbing plants, brought the number of dead up to eleven and it is believed there are four more in the ruins. Several workmen are still reported missing and it is supposed that they were caught under the falling walls.

With the exception of Chester Nicholson, whose back was broken, all the injured are reported as comfortable.

KNOWN DEAD NUMBER SIX.

But Many More May Have Perished in
Great Northern Wreck.

Spokane, Wash., July 25.—When the Spokesman Review's staff correspondent left the scene of the disastrous Great Northern wreck, thirty miles east of Spokane, at 5 o'clock p. m. none of the bodies buried in Diamond lake had been recovered. Efforts with a steam derrick to raise the submerged locomotive and the cars were unsuccessful. The known dead number six, but many in the vicinity of the wreck believe that the number will be increased to twelve or fifteen.

The track has been repaired and trains are moving as usual.

LITTLE GIRL CREMATED.

Burned to Death While Playing Around
a Bonfire.

Duluth, July 25.—Little Annie Fierst, the nine-year-old daughter of Mr. and Mrs. Michael Fierst, was burned to death a short distance from her home at Chisholm while playing around a bonfire. Her little playmates at a neighbor's house had refused her permission to play with them, so she returned to her home, obtained some matches and proceeded to have a bonfire of her own. In placing some branches on the pile, her dress became ignited and instantly she was enveloped in flames. Screaming with pain and terror she ran towards her home, which only made matters worse. She lingered several hours in intense pain, finally becoming unconscious, in which condition she expired. Her body was frightfully burned from the breast down.

BROKER ENDED HIS LIFE.

Body of Man Who Disappeared From
Monmouth, Ill., Found.

Chicago, July 25.—Fred S. Broberg, a prominent commission broker of Monmouth, Ill., who disappeared from there last Saturday on account, it is said, of a \$10,000 shortage in his accounts, committed suicide by shooting himself through the head on Lake Calumet. His body was found in a boat on the lake Tuesday, but was not identified until night. Young Broberg rented the boat late Monday and was not seen alive afterwards. Broberg's downfall is attributed to an attempt to carry trades himself, instead of having them executed on the Chicago Board of Trade. The recent slump in wheat is said to have caught him "long" a considerable quantity and he was unable to meet his obligations.

VICTIM OF AUTOMOBILE.

Body of Unknown Man Left Lying in
the Roadway.

Racine, Wis., July 25.—The body of a laborer, name unknown, aged about fifty-five, was found terribly mangled in the center of a highway five miles from here. Appearances indicate death from an automobile, as the remains had been dragged some seventy-five feet.

A receipted bill in the dead man's pocket bore the name of William Dreyer, St. Charles, Ill. That the man was struck by an automobile is evident from the marks in the roadway, which indicate that the machine was stopped and that before proceeding on its way a leak of considerable oil occurred.

Farmer Killed by His Wife.

Cherokee, Kan., July 25.—John Dauron, aged sixty years, a well known farmer, was shot and killed by his wife, who is forty-five years old. Dauron and his wife have had many quarrels of late and recently they separated.

Freight Handlers on Strike.

San Francisco, July 25.—The freight handlers of the Southern Pacific at West Oakland have gone on strike, demanding an increase of 2½ cents per hour.

NEW EPOCH PREDICTED

Old Things Disappearing, Says
Dr. Lyman Abbott.

"FRATERNALISM THE KEYNOTE"

Noted Divine Declares Present Industrial and Political Conceptions Will Soon Give Place to Universal Spirit of Brotherhood—Creeds and Sects Will Then Be United—New Age Not to Be Socialistic.

Comment on the Rev. Dr. Lyman Abbott's baccalaureate sermon to the senior class at Harvard the other day brings out the interesting fact that the editor of the Outlook has taken sides with those who are convinced that a new epoch in history has begun or is about to begin. It is noted that more than one scholar during this season of college speechmaking has brought news of the revolution, says a Boston dispatch to the New York Evening Sun.

Dr. Abbott declared that the industrial and political conceptions of the past century were fast being left behind and that fraternalism was the keynote of the new epoch. There was to be an amazing unity of things, he believed. He said in part:

"The civilized world, the Anglo-Saxon race, and especially the American people, are passing from the industrial and political conceptions of the last century to something very different. In the history of the world there have been three conceptions of the special order. The first of these is autocracy, the second individualism and the third fraternalism, the organization of society on a basis of mutual service and helpfulness.

"In the middle ages the conception of society was that the rule of the few was wise and good. Then came the Puritan reformation and a century later the French revolution. These two broke down aristocracy and autocracy, and there was ushered in a conception of individualism. Now we are entering into another epoch, that of fraternalism.

"In the coming age all the creeds and sects will be united by a common aim, purpose, spirit, because the coming age is to be a fraternal one. Every age has its vices and its virtues. The nineteenth century has had vices, all due to the same source. The first vice has been that of accumulation. Put men together and tell them to look after their own interests and push ahead and each man will be measuring himself by his accumulations. The second vice is the lawlessness of self will. We hear of the criminal classes. Can you tell me today who belong to the criminal class? Do the insurance directors who bought stocks low and sold them to companies in which they were directors at high prices? Do the railroad officials who broke the law of the land and now stand convicted? Do the coal carriers who did by a gentlemen's agreement that which was against the law? In religion the tendency has been toward narrowness and sectarianism. Each man has thought for himself and has thought that this was all there was to be thought. This is the irreverence of self conceit.

"It is not alone the processes of the Chicago packers that need inspection. We have false labels in this country. There is one remedy for all this. Society should be considered as a unit. And the law of society should be the law of mutual service. Already accumulation is on trial. I am not attacking the multimillionaire. It is better to be one than wish to be one and not have the ability. We have learned that the best interests of the community are not served by each man voting for his own interests. He must look after the national welfare.

"Already we have such men as Folk in Missouri, Jerome in New York, Colby in New Jersey and Roosevelt in Washington. We may not agree with them, but they recognize that something must be done in the state other than looking for individual interest. The age you enter has been called socialistic, but that is false. It is fraternal."

SOME MORE SENSATIONS.

Promised in the Hartje Divorce Case
at Pittsburgh.

Pittsburg, July 25.—From the statement made by Assistant District Attorney John Robb there are more sensations indicated in connection with the Hartje divorce case than have heretofore been disclosed.

After several hours devoted to counsel for August Hartje to endeavor to prove the Susie Wagner letter was written by Mrs. Mary Scott Hartje, which she has denied writing, the evidence in rebuttal of Mrs. Hartje's defense took a new stand.

B. B. Smith, an insurance agent, swore that he found the "Dear Edith" letter in the street and after consulting an attorney, gave it to Edward G. Hartje, brother of the plaintiff, Silas Canady, a negro, from Washington, D. C., testified that Blanche Ashby, the negress, and former servant of the Hartjes who in her deposition says she never observed anything improper about Mrs. Hartje's conduct, had told him she lied.

Canady's sensational testimony came just before the adjournment, but he was put through a rigid cross-examination by Attorney John Freeman for Mrs. Hartje, during which he became confused several times. Canady said that when he learned that Blanche Ashby was going to get a lot of money for lying he wrote Mrs. Hartje to find out if he could not get some money for telling the truth.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
